

April 4th, 2022

Hello -

This is a placeholder for the Financial Statement Review for RyeEye Publishing 2021. A brief recap of reports to the Board over the last year, Early in the summer of 2021 the Sage Accounting update turned the accounting computer into a brick with the loss of several months of backups and the Bookkeeper's husband died of a massive heart attack 2 weeks later. Later (and currently ongoing) a flood has kept us out of our office since January. A process was presented to the board by the General Manager on how to make the financial records whole, hire staff and advisors to help and seek new auditors over the course of 3 meetings.

We are still engaged in that process. As such our (hopefully soon to be Auditors see AGM Agenda) will be filling a NPO form and taxes once we have engaged them. After that they will begin the review and produce our Financial statements. These will be brought to the first board meeting of the new academic term and then to next year's AGM. .

Regards,

Liane McLarty
